What's New?*

New Product Launched in July

August 2011

'Burgers and 'Dogs are flipping at the Barbie for our new "Wild Blueberry Honey Mustard". This deliciously tangy & sweet condiment is equally at home on your choice of burgers, hot dogs, sausages or deli meats as it is being used as a dip for your favorite pretzels. Make it the perfect "go to" for your next patio or deck party – and don't forget you might just need a unique hostess gift for your next special invitation.

We're finding that the full but smooth flavor of this mustard is a wonderful complement to our Wild Blueberry Barbecue Sauce and Wild Blueberry Zesty Relish. And it will definitely give your Devilled Eggs recipe a whole new delicious dimension!
